EDUCATION

University of Guelph

September 2019 – Graduating 2024

Honours Bachelor of Computer Science – Software Engineering with CO-OP, minor in Statistics

- Degree consists of a combination of software engineering, computer science and statistics courses

WORK EXPERIENCE

QA Specialist – First National

April 2021 - December 2021

- Executed daily tasks effectively by using problem solving skills to test new changes to the Merlin desktop application
  - Created concise documentation for test plans, bug reports, exploratory testing and test results
  - Designed and executed test activities for new changes and bug fixes
  - Regularly released finished work on evenings and weekends into production environment
- Collaborated and communicated regularly with a team of software developers, QA and BA through Teams and Azure DevOps
  - Contributed to daily stand-up meetings and bi-weekly sprint planning sessions with delivery team to discuss test strategies, ongoing issues and upcoming change requests
  - Maintained up-to-date tasks in Azure by periodically adjusting work time estimates, adding comments and attaching relevant email chains for future reference
  - Attended high-level Scrum meetings to gain a better understanding of the software development cycle
- Trained new employees to test Merlin as a trusted subject matter expert

Referee Mentor – Brampton Soccer Club

August 2019

- Studied how new match officials refereed soccer games and provided them with constructive feedback based on my experience and expertise
  - Critiqued match officials on their form as well as game execution and professionalism
  - Mentored the same match officials multiple times in order to ensure their success by monitoring their performance, providing feedback and answering their questions
  - Wrote and submitted detailed reports to each match official and head referee in order to support continued learning and improvement
